Re: EU Directive 2015/863 (RoHS 3) Compliance Declaration

To Whom It May Concern,

The following declaration is in response to your enquiry regarding the compliance of SEKISUI KYDEX Products in all colors to 2011/65/EU (also referred to as RoHS 2) and EU Directive 2015/863 (also referred to as RoHS 3). Compliance to RoHS 3 means the product's composition does not exceed the maximum concentration of restricted substances listed in Annex II or uses application exemptions listed in Annex III or Annex IV and Amendments.

Annex II limits the following substances within each homogenous material, except by exemption:

Cadmium	0.01% w/w
Chromium VI	0.10% w/w
Lead	0.10% w/w
Mercury	0.10% w/w
Polybrominated Biphenyls (PBB)	0.10% w/w
Polybrominated Biphenyl Ether (PBDE)	0.10% w/w
bis(2-ethylhexyl) phthalate (DEHP)	0.10% w/w
butyl benzyl phthalate (BBP)	0.10% w/w
dibutyl phthalate (DBP)	0.10% w/w
Di isobutyl phthalate (DIBP)	0.10% w/w

SEKISUI KYDEX Products are compliant with 2011/65/EU and EU 2015/863 as they do not contain any of the restricted substances within Annex II in concentrations exceeding their maximum limits by weight nor utilize any application exemptions listed in Annex III and IV and Amendments.

SEKISUI KYDEX supports the goals of RoHS, which are consistent with our own commitment for proper and responsible handling, use, and disposal of chemicals and our products. It is our intent to keep current with all the changes associated with RoHS regulation and actively eliminate any chemical component that is or may be identified as a harmful substance.

Please feel free to contact us with any questions you may have.

Regards,

Michael Kessler | appLab[™] Specialist
